24-03-79

Jorge Vera-Rojas
Buffalo, New York

(National Autonomous University of Mexico, Mexico City, Mexico, Bachelor of Dental Science, August 1991)

Petition for: Acceptance of education.

Statement of Problem: Section 6604-b of Article 133 of the Education Law requires an applicant for restricted dental faculty license to have completed a total of no less than six academic years of preprofessional and professional education, including: courses in general chemistry, organic chemistry, biology or zoology, and physics; and not less than four academic years of professional dental education satisfactory to the department.

Immediately after secondary school, Dr. Vera-Rojas completed a four-year professional dental education program at the National Autonomous University of Mexico in Mexico City, Mexico. Following that, he completed a two-year master's degree in Endo-Meta-Endodontics at Instituto de Estudios Avanzados en Odontologia "Dr Yury Kuttler" in Mexico City, Mexico.

Although Dr. Vera-Rojas has six years of combined education in dentistry, his education does not exhibit the pattern of two years of preprofessional education followed by a four-year dental program as expected. The Executive Secretary of the State Board for Dentistry recommends that Dr. Vera-Rojas's combination of studies be accepted to fulfill the education requirement.
